We help companies become resilient against cyber attacks

- Self-security assessment service
- Periodic scans & notifications
- Recommendation for fixing the issues
- 25+ essential tools
 - Updated
 - Configured
 - Ready to run

- 1,4 million users last year #
- Organic growth #

Audience Overview (Google Analytics)

- # > 3000 customers
- # 120 countries

- # 80% companies (SMEs)
- # 20% individuals

Back to pentest reporting

- # Copy-paste from previous reports
 - What was the latest good version?
 - Search for findings in multiple reports
 - Adapt to the current client (!)

- # Make your own report generator tool
 - Who makes it?
 - Who maintains it (bug fixing, new features, updated, etc)?
 - Who keeps it updated and clean with the latest findings?

- # Use a third-party report generation tool
 - Serpico:
 - https://www.serpicoproject.com
 - <u>https://github.com/SerpicoProject/Serpico</u>
 - VulnReport:
 - <u>http://vulnreport.io/</u>
 - <u>https://github.com/salesforce/vulnreport</u>
- # Challenges:
 - Deployment & Initial configuration
 - Learning a new reporting tool
 - Importing scan results
